

Privacy Policy for Smart Formatter

Effective date: April 03, 2026

Smart Formatter is a Chrome extension that formats JSON and XML content directly in your browser.

Data We Access

- Page content and selected text (only to run formatting features you trigger).
- Temporary extension storage (`chrome.storage.local`) for formatted payload handoff between extension pages.

Data We Do Not Collect

- No personal account data.
- No browsing history logging.
- No analytics, tracking, or advertising identifiers.
- No remote database or server-side storage.

How Data Is Used

- Formatting is performed locally on your device.
- Temporary payload data is stored only as needed to open formatted content in the viewer tab, then removed.

Data Sharing

- We do not sell data.
- We do not transfer data to third parties.
- We do not use data for advertising.

Permissions Rationale

- `activeTab` : run formatter actions on the current tab when you click the extension.
- `scripting` : inject formatter scripts when needed.
- `storage` : store temporary formatted payload data.
- `<all_urls>` host access: allow formatting on any page where you choose to use the extension.

Security

- Processing is local in the browser extension context.
- No external network requests are made by Smart Formatter for formatting features.

Changes to This Policy

If this policy changes, the effective date above will be updated.

If you have questions about this policy, please contact the publisher through the support channel listed on the Chrome Web Store page.
